

UnitedHealthOne Application

Submitting applications online through
www.UHOne.com

#1: Go to www.UHONE.com and login

#2: Click on Instant Quote under the Quoting & Applications tab, then input Zip Code and click GO.

#3: Input client's information, Health Class choices are Preferred I, Preferred II, Standard I and Standard II. (www.TheGeneralAgent.com/underwriting.html) Select the plan(s) you wish to review and click on Get Quote Now.

#4: Change deductible, coinsurance, options and additional products as needed until you get the plan exactly how you would like to submit. At that point click Start Broker Assisted App.

#5: Gather information from client. After collecting all information or at any point during the application you can Save and Send to Prospect.

#6: Your client will receive an email from you sent from United Health. It will have a link on there and when they click a page will pull up (Picture Below) that has them input their information. ****Very Important**** They **NEED** to create their own username and password and hit register. Make sure they are aware they create a username and password and do not already have one. Once they register it will pull up the information you collected and they simply verify and esign.
